Christopher J. Paciorek

CONTACT INFORMATION

Department of Statistics
University of California, Berkeley
367 Evans Hall
Berkeley, CA 94720 USA

Voice: (510) 842-6670
Fax: (510) 642-7892
E-mail: paciorek@stat.berkeley.edu
WWW: www.stat.berkeley.edu/~paciorek

RESEARCH INTERESTS

Bayesian statistics, spatial and spatio-temporal statistics, statistical methods for environmental and public health data, statistical computing, statistical methods for large datasets.

EDUCATION

Carnegie Mellon University, Pittsburgh, Pennsylvania USA

Ph.D., Statistics, May 2003

- Dissertation Topic: "Nonstationary Gaussian Processes for Regression and Spatial Modelling"
- Winner of the 2003 Leonard J. Savage Award for best dissertation in the area of Bayesian Theory and Methods
- Advisor: Mark J. Schervish

M.S., Statistics, May 2000

Duke University, Durham, North Carolina USA

M.S., Botany (Ecology), May, 1998

Carleton College, Northfield, Minnesota USA

B.A., Biology, May, 1993

HONORS AND AWARDS

Health Effects Institute, Walter A. Rosenblith New Investigator Award, 2006

Leonard J. Savage dissertation award (see above), 2004

CMU Statistics Department, Student of the Year, 2003

Phi Kappa Phi National Honor Society, 2002

National Science Foundation, Graduate Research Fellowship, 1996

Carleton College: graduated Magna Cum Laude, Honors in Biology, Phi Beta Kappa, 1993

ACADEMIC EXPERIENCE

University of California, Berkeley, Department of Statistics, Berkeley, California USA

Statistical Computing Consultant	**July, 2012 - present**
Adjunct Professor	**July, 2017 - present**
Associate Research Statistician and Lecturer	**July, 2012 - June, 2017**
Assistant Research Statistician and Lecturer	**July, 2011 - June, 2012**
Visiting Assistant Professor	**July, 2009 - June, 2011**

- Statistical computing support for faculty and students, preparation and presentation of statistical computing training materials, development of statistical computing initiatives for the department.
- Ongoing research in spatial and environmental statistics, applied to environmental exposure and epidemiology, climate, global health, and paleoecology.
- Postdoctoral advisor for Cliff Anderson-Bergman (co-advised with Perry de Valpine), Andria Dawson (co-advised with Jason McLachlan), Mark Risser, Zuofeng Shang (co-advised with Jason McLachlan), Daniel Turek (co-advised with Perry de Valpine).
- Instructor for graduate-level Bayesian statistics class, fall 2016 (Stat 238). Instructor for graduate-level statistical computing class, fall semesters, 2011-2015 and 2017, with thorough course revision

in fall 2011 (Stat 243). Taught undergraduate introduction to statistics for biology, environmental science and public health students, fall 2010 and spring 2011 (Stat 131A); undergraduate statistical theory course, spring 2010 (Stat 135); undergraduate regression class, fall 2009 (Stat 151A).

Harvard School of Public Health, Department of Biostatistics, Boston, Massachusetts USA

Research Scientist **July, 2011 - June, 2012**
Adjunct Assistant Professor **July, 2009 - June, 2011**
Assistant Professor **July, 2005 - June, 2009**

- Research in spatial and environmental statistics, applied to environmental exposure and epidemiology, climate, global health, and paleoecology.
- Updated and taught full semester course in Bayesian Methodology in Biostatistics, fall 2007 and spring 2009 (Bio249).
- Initiated and co-taught new full semester course in Spatial Statistics, spring 2007 (Bio283).
- Initiated two new winter session courses: 1.) an introduction to R (Bio503) and 2.) an introduction to GIS (Bio504).
- Thesis committees: Mariel Finucane (co-advisor; Biostatistics, Ph.D. 2011), Rebecca Lincoln (Environmental Health, Sc.D. 2011), Len Zwack (Environmental Health, Sc.D. 2010), Casey Olives (Biostatistics, Ph.D. 2010), Loni Philip (Biostatistics, Ph.D. 2009), Paul Brochu (Environmental Health, Sc.D. 2009), Monique Perron (Environmental Health, Sc.D. 2009), Jeffrey Yanosky (Environmental Health, Sc.D. 2007), Lisa Baxter (Environmental Health, Sc.D. 2007), Jane Clougherty (Environmental Health, Sc.D. 2006).
- Department computing committee chair (2007-2009), responsible for overseeing student assistants, interaction with school information technology department, and major role in developing school's Linux cluster

Harvard School of Public Health, Department of Biostatistics, Boston, Massachusetts USA

Postdoctoral Research Fellow **July, 2003 - June, 2005**
Research in spatial and environmental statistics. Co-taught graduate level course in spatial statistics.

Carnegie Mellon University, Department of Statistics, Pittsburgh, Pennsylvania USA

Graduate Student **August, 1998 - May, 2003**
Teaching experience included serving as co-instructor of introductory probability and statistics course for finance graduate students (summer 2002) and head teaching assistant for introductory probability class (spring 2001).

Submitted manuscripts

Risser, M.D., **C.J. Paciorek**, D. Stone. Spatially-dependent multiple testing under model misspecification, with application to detection of anthropogenic influence on extreme climate events. Submitted to JASA Applications and Case Studies.

Michaud, N., P. de Valpine, D. Turek, and **C.J. Paciorek**. Sequential Monte Carlo methods in the NIMBLE R package. Submitted to Journal of Statistical Software.

Peer-reviewed Publications

Grants

Health Effects Institute
Principal investigator **August, 2006 - September, 2009**
Integrating satellite and monitoring data to retrospectively estimate monthly $PM_{2.5}$ concentrations in the eastern United States, $300,000.

National Institute of Environmental Health Sciences
Co-investigator **December, 2007 - November, 2010**
Analysis of high-dimensional environmental health data, $735,194

National Cancer Institute
Co-project leader and computing core director **September, 2008 - August, 2013**
Program Project: Statistical informatics for cancer research, $4,170,148.

National Institute of Environmental Health Sciences
Co-investigator **July, 2009 - June, 2013**
Diet, physical activity, and the relationship between air pollution and CVD, $1,200,000.

Bill and Melinda Gates Foundation
Co-investigator **October, 2009 - June, 2012**
Databases, impact model, and impact analysis of nutritional conditions and deficiencies in developing countries, $692,416.

Department of Energy
Co-investigator **September, 2010 - August, 2013**
Visual data exploration and analysis of ultra-large climate data, $1,024,980.

National Science Foundation
Co-PI (unofficial) and statistics lead **May, 2011 - April, 2013**
PalEON - a PaleoEcological Observatory Network to assess terrestrial ecosystem models, $750,000.

National Science Foundation
Co-PI **April, 2012 - March, 2015**
ABI Development: An extensible software platform for integrating multiple sources of data and uncertainty using hierarchical statistical models, $912,896.

National Science Foundation
Co-PI and statistics lead **September, 2013 - August, 2018**
PalEON - a PaleoEcological Observatory Network to assess terrestrial ecosystem models, $5,113,060.

National Science Foundation and Department of Energy
Co-investigator **July, 2013 - June, 2018**
EaSM2 Advancing extreme value analysis of high impact climate and weather events, $4,105,000.

Department of Energy
Statistics lead **October, 2013 - September, 2016**
CAlibrated and Systematic Characterization, Attribution, and Detection of Extremes (CASCADE) Scientific Focus Area (SFA), $6,559,238.

National Science Foundation
Co-PI **September, 2016 - August, 2020**
SI2-SSI: Integrating the NIMBLE statistical algorithm platform with advanced computational tools and analysis workflows, $1,000,000.

National Science Foundation
Co-PI **September, 2016 - August, 2019**
Collaborative Research: Expanding the Computational Statistics Toolbox for General Hierarchical Models, $200,000.

Professional Experience

SAS, Inc., Cary, North Carolina, USA

Bayesian statistical computing consultant **October, 2005 - October, 2009**
Occasional consultant on Bayesian statistical computing, primarily for the development of Proc MCMC.

X-CEL Adult Education Services, Boston, Massachusetts USA

Volunteer GED teacher/tutor **October, 2003 - July 2008**
Taught weekly 2.5 hour GED prep reading/writing/social studies/science class for 4-12 students (after summer 2005). Tutored weekly 2.5 hour GED prep to small group (prior to summer 2005).

Bureau of Transportation Statistics, U.S. Department of Transportation, Washington, District of Columbia USA

Summer researcher **May, 2000 - August, 2000**
Carried out several consulting projects, including modelling of injuries to cadavers in crash test experiments, analysis of airline delay data, and advice on analysis of airline economics data.

Abt Associates, Bethesda, Maryland USA

Associate Programmer Analyst and Research Assistant **October, 1994 - August, 1996**
Researcher and computer model developer for U.S. EPA Regulatory Impact Analysis of Section 403 Lead Paint Hazard Rule. Other projects included database analysis, literature reviews, and cost-benefit analysis.

Computing Skills

- Languages and packages: R, Python, C/C++, bash, Spark, openMP, MPI, SQL, JAGS/BUGS, limited exposure to Matlab.
- R packages: created climextRemes, bigGP, and spectralGP packages. Co-developer of the NIMBLE package.
- Algorithms: Extensive experience programming/evaluating/debugging Markov chain Monte Carlo simulations of Bayesian posterior distributions.
- Operating Systems: UNIX/Linux, Mac OS X.

Professional Service

Journal editing:

- 2016-present: associate editor for reproducibility (founding/coordinating) for JASA Applications and Case Studies
- 2015-present: board of statistical reviewers for JAMA
- 2014-present: associate editor for Advances in Statistical Climatology, Meteorology and Oceanography
- 2010-2012: associate editor for Electronic Journal of Statistics

Journal and proposal reviewer:
- 2018: JAMA, Journal of Statistical Planning and Inference, World Bank Economic Review
- 2017: Air Quality Atmosphere and Health, American Journal of Epidemiology, JAMA (7), Mathematical Geosciences, NSERC (Canada) proposal review, PLOS ONE, Statistical Science
- 2016: Climate Dynamics, JAMA (6), National Environmental Research Council (UK) proposal review, NSERC (Canada) proposal review, Nature
- 2015: Bayesian Analysis, JAMA (5), International Journal of Health Geographics, Journal of the American Statistical Association, Journal of Statistical Software, Scandinavian Journal of Statistics, SIAM Journal of Uncertainty Quantification
- 2014: BMC Public Health, Climatic Change, Environmetrics, Journal of Agricultural Biological and Environmental Statistics, JAMA (2), Journal of the American Statistical Association, National Science Foundation proposal review (2), Statistics in Medicine
- 2013: Climate Dynamics, Environmental Health Perspectives, Environmetrics, Health Effects Institute research report review, International Journal of Environmental Research and Public Health, JAMA, Journal of Agricultural Biological, and Environmental Statistics (book review), Journal of the American Statistical Association (2), Journal of the Royal Statistical Society Series B, Journal of the Royal Statistical Society Series C, Statistica Sinica, Statistical Methods in Medical Research
- 2012: Annals of Applied Statistics, Fondecyt (Chile) proposal review, BMJ Open, Environmental Health Perspectives, Environmental Monitoring and Assessment, Health Effects Institute proposal review, Journal of the American Statistical Association
- 2011: Annals of Applied Statistics, Atmospheric Environment, Biometrics, Environmental Health Perspectives, Journal of the American Statistical Association
- 2010: Annals of Applied Statistics, Bayesian Analysis, Ecological Applications, Environmental Science and Technology, Environmetrics, Epidemiology, Journal of the American Statistical Association (2), Journal of Geophysical Research - Atmospheres, Journal of the Royal Statistical Society Series C
- 2009: Canadian Journal of Statistics, Journal of the American Statistical Association, Environmetrics (2), Weather and Forecasting
- 2008: Biometrics, Ecology, Environmental Health, Journal of Computational and Graphical Statistics, Journal of the American Statistical Association, NSERC proposal review, Statistics in Medicine
- 2007: American Journal of Epidemiology, Annals of Applied Statistics, Canadian Journal of Statistics, Journal of the American Statistical Association
- 2006: Bayesian Analysis, Biometrics, Journal of the American Statistical Association (3), Statistica Sinica (2)
- 2005: American Journal of Epidemiology, Journal of Applied Meteorology, Journal of Statistical Computation and Simulation, Statistics in Medicine
- 2004: Bayesian Analysis, Biometrics, Statistics in Medicine

Grant review panel member:
- EPA CMU Clean Air Center grant Scientic Advisory Committee member, 2016-2020
- NCI SBIR Facilitating the Transfer of Statistical Methodology into Practice round2 review, 2012
- EPA STAR Clean Air Research (formerly PM) Center review, 2010
- NCI SBIR Data Harmonization and Advanced Computation of Population Health Data and Facilitating the Transfer of Statistical Methodology into Practice combined review, 2010
- EPA STAR Consequences of Global Change for Water Quality review, 2008

- EPA STAR Coarse Particles review, 2007
- NIEHS-EPA Children's Centers special emphasis review, 2006

Professional society committees:
- Member, National Academy of Sciences Committee on Extreme Weather Events and Climate Change Attribution, 2015-2016
- Member, American Statistical Association Advisory Committee on Climate Change Policy, 2014-2016
- ASA Section on Bayesian Statistical Science, JSM student paper award committee, 2012.
- ASA Section on Environmental Statistics, JSM award committee, 2005.

Conference invited session organizer:
- JSM, 2014: Challenges and Solutions in Developing and Disseminating Flexible Software for Hierarchical Modeling
- ENAR, 2009: Statistical Modeling and Design Issues in Epidemiological Studies
- ENAR, 2006: Statistical Issues in Using Exposure Estimates in Environmental Epidemiology
